

To whom it may concern,

I am writing to voice my concern over the possibility that k-love might be replaced with another broadcast service. K-love is the only station my children and I listen to. It is a wonderful station that plays christian music - music that I never have to worry about the words and lyrics

I believe that k-love serves the community in so many different ways. They have family safe broadcasting, they are very positive and uplifting and once again, play wonderful christian music.

They also have staff pastors who are available 24 hours a day to anyone needing prayer or counseling. They are invaluable!!!!

Please don't take away our k-love. I truly would be lost without it. There are no other radio stations that even compare to them. I would hate to tell my kids we can no longer listen to the radio because k-love isn't around anymore.

Sincerely,

Robin Richert
